Pittsburgh, PA | +1(412)-808-6629 | kaushickgunturi@gmail.com

PROFILE SUMMARY

I am a results-driven analytics professional with 3+ years of experience in data analysis, business analysis, and applied data science, delivering insights that drive strategic decisions and operational efficiency. Skilled in SQL, Python, Power BI, Tableau, and advanced Excel, I excel at extracting, cleaning, and modeling large datasets to uncover trends and inform business strategy. My experience spans requirements gathering, UAT, data reconciliation, and predictive analytics, supporting initiatives in finance, compliance, and operational domains. Adept at building interactive dashboards, automating reporting workflows, and applying statistical techniques to solve complex problems using data analysis. I thrive in Agile environments, collaborating with cross-functional teams to deliver scalable, compliant, and high-impact solutions. Proven track record of improving data accuracy, reducing reporting errors, and accelerating decision-making cycles through actionable, data-driven recommendations.

TECHNICAL SKILLS

- Languages:** Python, SQL, DAX, Java
- Data Analysis & Reporting:** Microsoft Excel (Advanced), Power BI, Tableau, Ad Hoc Reporting, Compliance Reporting, KPI Tracking, Data Modeling
- Databases:** MySQL, PostgreSQL, Snowflake, Azure SQL Database, MS SQL Server
- Business Analysis & Documentation:** BRD, FRD, User Stories, UAT, Data Reconciliation, Gap Analysis, Root Cause Analysis, Impact Assessment, Requirements Traceability Matrix (RTM)
- Process Modeling & Visualization:** Lucidchart, Microsoft Visio, Draw.io, BPMN 2.0
- Project & Agile Tools:** JIRA, Confluence, Azure DevOps, Trello
- Collaboration & Presentation:** Microsoft Teams, Slack, PowerPoint, Google Workspace
- Compliance & Domain Exposure:** HIPAA, PCI-DSS, SOC 2, Travel Management Systems, Financial Services
- Business Intelligence Support:** Executive Reporting, Trend Analysis, Operational Dashboards, Data Storytelling
- Additional Skills:** ETL Processes, Data Validation, Stakeholder Management, Process Optimization, Agile/Scrum Methodologies

PROFESSIONAL EXPERIENCE

- Business Analyst
REPAY

Louisville, KY
April 2025 - Present

 - Directed user acceptance testing (UAT) for data workflows, increasing compliance verification efficiency by 14% and lowering postrelease defects.
 - Partnered with finance, compliance, and operations teams to document requirements, ensuring 100% traceability to deliverables.
 - Performed structured data reconciliations across multiple systems, cutting reporting discrepancies by 11% and improving audit readiness.
 - Designed ad hoc SQL and Power BI reports that reduced turnaround time for urgent data requests by 22%.
 - Supported regulatory audits by validating voucher/report datasets and tracking anomalies, shortening resolution cycles by 17%.
 - Assisted with data migration testing during reporting tool transitions, ensuring smooth go-live with zero critical issues.
 - Created operational dashboards with KPI tracking, improving leadership visibility into real-time metrics by 13%.
- Business Analyst
Mindoula

Silver Spring, MD
July 2024 - March 2025

 - Conducted workshops and stakeholder interviews to capture and prioritize requirements, aligning deliverables with business strategy.
 - Applied historical and predictive data analytics to guide leadership decisions, improving 3 major KPIs across operations.
 - Created BRDs, FRDs, and user stories, streamlining developer handoffs and reducing rework by 16%.
 - Built process maps, flowcharts, and mockups in Lucidchart/Visio, minimizing requirement misinterpretation by 19%.
 - Delivered SQL- and Power BI-based dashboards that improved KPI visibility and data accuracy by 12%.
 - Conducted gap and root cause analyses to address recurring data integrity issues, preventing reoccurrence in 4 product releases.
 - Collaborated with data teams to ensure accurate KPI tracking, improving monthly reporting accuracy by 9%.
- Data Analyst
Dotsquare Technologies India Pvt. Ltd

India
May 2020 - Apr 2022

 - Gathered and transformed multi-source datasets with over 98% accuracy, strengthening confidence in analytics outputs.
 - Delivered 112+ weekly and monthly Excel/Power BI reports, accelerating decision-making cycles by 21%.
 - Identified and corrected data quality issues, reducing reporting errors by 13% across departments.
 - Maintained and optimized dashboards for operational and financial metrics, improving refresh efficiency by 18%.
 - Performed descriptive and diagnostic data analysis to identify emerging trends and patterns in business performance.
 - Supported ad hoc data analysis requests, enabling fast responses to dynamic operational needs.
 - Created SQL-based queries for structured datasets, improving turnaround for analytical requests by 15%.

EDUCATION

- Master's in Business Analytics
University of New Haven, New Haven, CT

Sept 2022 - May 2024
- Bachelor of Technology in Computer Science and Engineering
Raghu Engineering College, Andhra Pradesh, India

Aug 2018 - May 2022
